

## PRE-HUNG ENTRY DOOR REPLACEMENT

Let Southern Lumber make replacing your Entry Door a snap, with a custom Pre-hung door that's made to fit.

### LIST OF NEEDED STEPS:

1. Determine your rough opening by removing the Casing from one side of doorway, and measuring from stud to stud in width, and from the Header down to the finished floor.
2. Measure for wall thickness (This will determine the Jamb width).
3. Determine if Door and Frame will be Painted or Stained.
4. Select the style of Door to be used.
5. Select Threshold and Sill type to be used (Wood, Aluminum).
6. Select new Door Lock / Handle (If you're not replacing Handle take careful measurements of spacing and hole size).
7. Determine the finish of Butt Hinges (Dull Brass, Polished Brass, Chrome etc.).
8. Place order (usually allow 2-4 weeks)
9. Start installation by removing existing door and frame completely.
10. Next separate new door from frame by removing hinge pins to disconnect.
11. Set new frame into rough opening, start on hinge side of frame and insert wood shims until frame is "Plumb". (Shims should be installed from opposite directions so as not to tilt the frame).
12. Once frame is plumb use 8d finish nails and secure into place.
13. Now reinstall door into frame, and continue to shim "Latch side" jamb and head jamb (Be careful to keep a constant gap between jamb and door on all three sides).
14. Re-install new Casing moulding around opening on each side and you're done.

### CHECKLIST OF NEEDED SUPPLIES:

- |  |   |
|--|---|
| <input type="checkbox"/> Pre-Hung Door | <input type="checkbox"/> Lock                 |
| <input type="checkbox"/> Mouldings     | <input type="checkbox"/> Finish nails 5d & 8d |
| <input type="checkbox"/> Shims         | <input type="checkbox"/> Caulking             |

### RECOMMENDED TOOLS:

- |  |  |
|--|--|
| <input checked="" type="checkbox"/> Tape Measure | <input checked="" type="checkbox"/> Screwdriver  |
| <input checked="" type="checkbox"/> Hammer       | <input checked="" type="checkbox"/> Nail Set     |
| <input checked="" type="checkbox"/> Level        | <input checked="" type="checkbox"/> Miter Box    |
| <input checked="" type="checkbox"/> Chisel       | <input checked="" type="checkbox"/> Caulking Gun |
