

SWING-N-SLIDE PLAYGROUND SET

Your kid's will be the envy of the neighborhood with a Pre-Cut Playground Set from Southern Lumber Company!

LIST OF NEEDED STEPS:

1. Carefully measure area to be used. (Be sure to take into consideration proper safety clearance from obstructions).
2. Select a Project plan that will best fit your area. Check with your local Building Department for any restrictions.
3. Determine type of lumber to be used.
4. Let Southern Lumber pre-cut the kit for easy assembly.
5. Select a finish to seal & protect playground set.
6. Upon receipt of goods, layout all lumber pieces by their use. Be sure to Read & Follow Manufacturer's instructions.
7. Pre-cut material as directed by Manufacturer (Or have Southern Lumber Cut it for you).
8. Start assembly.
9. Once built, apply proper finish to preserve and protect structure.
